ABOUT ME

Currently graduating in Computer Science and Engineering. My goal is to become a full-stack web developer. I like working on logical things and use my creativity to solve problems. I enjoy making websites, especially the backend. Currently working on more projects to enhance my skills.

PROJECTS

Portfolio   React-Bootstrap, React.js

My personal portfolio.

Sign Up Form   JavaScript, Node.js, Express.js, MongoDB

Clone of Epic Games website signup page with backend. Just a simple signup page on which users can create an account, view and modify their details and password.

Samsung UI Clone   JavaScript, Bootstrap

Clone of Samsung Website Homepage. Responsive and great looking UI
